

Overview of the 3rd SUSTAINABLE SERVICE-IN-DS Transnational Meeting

The SUSTAINABLE SERVICE-IN-DS cohort had the 3rd transnational meeting in Lisbon, Portugal. The meeting occurred in person, on October 21st and 22nd, in the framework of the European initiative of “SUSTAINABLE SERVICE-IN-DS: Involving Persons with Down Syndrome in the implementation of Sustainable Development Goals through Service Learning”.

Brief Introduction to SUSTAINABLE SERVICE-IN-DS

SUSTAINABLE SERVICE-IN-DS is an Erasmus+ project that aims to combine the empowerment of people with Down Syndrome with the SDGs implementation. The key element of its design, is employing the service-learning methodology for the best possible materialization of the overall goal. It is a synergy from organizations, coming from Romania; Croatia; Greece; Spain; and, Portugal.

The Transnational Meeting's Agenda

In the two-day meeting, the partnership actualized the following actions:

- **Day 1:** The partnership revised and discussed about the first drafts of the 2nd intellectual output. In addition, they went through and approved specifications, regarding the SUSTAINABLE SERVICE-IN-DS e-Training Tool (IO4).
- **Day 2:** The partners revised and discussed about the training materials (IO3) and approved pertinent specifications. Moreover, the cohort reviewed the status of the SUSTAINABLE SERVICE-IN-DS work plan; specifically, the quality plan and the dissemination activities. The meeting wrapped up with the examination of the initiative's finance.

It was a productive meeting between the 8 partners of the SUSTAINABLE SERVICE-IN-DS cohort. The strategic partnership ensured the high quality of the outcomes so far; and, the ones expected, for the successful fulfillment of their mission.
