We are excited to announce our upcoming International Training Course designed to empower educators, trainers, and youth workers with the knowledge and tools they need to make a positive impact in their communities. Here's everything you need to know about this exciting activity:

Location: Larissa, Greece

Date: 16-20th October 2023

Duration: 5 days

Organizer: Institute of Entrepreneurship Development

Participants: educators, trainers, and youth workers from Italy, Spain, Tunisia, Egypt, and Jordan eager to enhance their skills and contribute to youth development

Our Mission

The primary aim of the International Training Course is to **equip educators, trainers, and youth workers** with a deeper understanding of **EYES' training methodology**. We want to provide them with the essential tools required to facilitate local pilot workshops, enabling young people to develop the skills and competencies needed to establish their own social enterprises.

EYES partners have already been working on the **Training Tools**, the under construction main deliverable of Work Package 3. This section of the training handbook will include details helpful for organizing social entrepreneurship-related events and educating future social entrepreneurs. It will offer advice on how to start a social enterprise as well as particular courses and resources to enhance associated competencies. It will be available in 6 languages (English, Spanish, Italian, Greek, French, and Arabic) both online and in print.

What to Expect

During this 5-day training, participants will engage in a rich and immersive agenda, designed to enhance their capabilities. The agenda includes:

- ✓ **Getting to Know Each Other**
- ✓ **Identifying Personal and Collective Goals and Concerns**
- ✓ **Introduction to the Methodology of Training Tools and How to Use Them**
- ✓ **Mastering the Tools that Empower Youth**
- ✓ **Delving into the World of Social Entrepreneurship**
- ✓ **Designing and Creating Impactful Workshops**

Our training course goes beyond theoretical knowledge. Participants will leave prepared and motivated to organize and lead local workshops when they return to their home countries. This practical experience will enable them to inspire and guide young people toward building their own social enterprises.
